Our Community Hero!

Giving made easy...
Giving where it counts!

Built to last

The Foundation was created to become Ballarat's very own philanthropic organisation, harnessing the power of giving, with the ultimate aim of establishing a permanent and flexible source of local funding. Donations and bequests from individuals, families, companies and trusts are carefully invested and they will benefit Ballarat for generations to come. It's that simple.

What a good idea

You can make a donation or bequest to the Ballarat Foundation. Your donation, however small, lasts forever and will accumulate with donations from like-minded people. Or you can become a Foundation Ambassador, donating time, skills and passion. There are many ways to make our Foundation grow and provide benefits to the community for generations to come. It's that simple.

THE Ballarat Foundation

Now! For the Future

Designed to work

The Foundation's role is to receive donations and bequests from individuals, families, companies and trusts (money in), invest the funds to generate income (money managed), and provide grants for community projects (money out). It's that simple.

It's a . . . simple concept

Your donation or bequest is placed in an ever-growing Foundation fund that is carefully invested. Income from that fund is distributed as grants for community projects. Your donation, however small, is never actually spent. It lasts forever. It's that simple.
